Profile

Fresh Computer Science graduate and passionate web developer with hands-on experience in building responsive and dynamic web applications using the MERN stack, with a strong focus on React.js for front-end development. Skilled in creating clean, maintainable code and intuitive user interfaces. Familiar with DevOps fundamentals and containerization using Docker. Eager to contribute as a React/Web Developer in a collaborative, fast-paced environment.

Professional Experience

Freelancer   2024 – present
                                                                              Remote

- Designed and developed responsive, user-friendly web applications using **React.js** and **Tailwind CSS**, ensuring optimal performance across devices.
- Integrated **RESTful APIs** and third-party services to fetch and display dynamic data in real-time applications.
- Collaborated with clients to gather requirements, propose UI/UX improvements, and deliver customized solutions within deadlines.
- Utilized **Git** and **GitHub** for version control and collaborative development workflows.
- Applied best practices in **component-based architecture**, **state management (using hooks/context)**, and **code optimization**.
- Delivered projects such as e-commerce front-ends, portfolio sites, Landing pages, and admin dashboards.

Web Developer Intern, *CodeAlpha*   06/2024 – 08/2024

- Developed user interfaces with modern JavaScript frameworks, HTML5, and CSS3.
- Wrote custom HTML and JavaScript for existing websites.
- Developed interactive prototypes using HTML, CSS, JavaScript, and jQuery for client presentations and feedback sessions.
- Attended development programs to gain competencies and boost skills set.
